^{AH}Indicates colour available with the optional High Tack adhesive system. Please specify at point of ordering.

Product Description

Premium grade high performance calendered vinyl, developed for computer-cut graphics for vehicles, window decals, and long term applications onto flat or slightly curved surfaces.

The soft handle 70 micron face film offers ease of weeding, while the Apex high grade solvent based adhesive allows wet application and clean removal.

Specifications

Face Film	70 Micron Polymeric calendered PVC
Adhesive	Permanent solvent-based acrylic Apex: Supplied as standard MetaScape: Available on certain colours High Tack: Available on certain colours
Application Temperature	+5°C to +60°C
Release Liner	Structured Layflat Kraft Liner
Shelf Life	2 years
External Weathering	8 years black and white, 7 years colours, 5 years for metallics. Vertical exposure under Northern European conditions. For other regions and climates please refer to our full Durability Guide found on our website.
Fire Rating	Class B. BS EN 13501-1:2007

MetaScape® Adhesive System

MetaScape® offers faster, trouble-free application of larger areas on flat or slightly curved surfaces. The MetaScape® Adhesive System provides air with an exit route through channels within the adhesive. MetaScape® is suitable for dry application methods, resulting in a durable graphic that is ready much sooner after installation.

High Tack Adhesive System

The High Tack Adhesive System has been developed to apply to 'difficult to stick to' surfaces, smooth low energy plastics such as PE and PP, and for smooth sealed interior wall decor applications. The High Tack adhesive provides enhanced adhesion and a high grade solvent-based adhesive which allows for wet application.
